# Intel's Vision Internet of Things

## INTELLIGENT DEVICES

Deliver Intelligence where  
needed to acquire and filter  
data securely

## INTELLIGENT SYSTEM OF SYSTEMS

Billions of intelligent devices  
sharing data and securely,  
supporting legacy and new  
environments

## END TO END ANALYTICS

Solutions from device to  
cloud to deliver end-to-end  
customer value

# INTELLIGENT DEVICES

## INTELLIGENT DEVICES

Deliver Intelligence where needed to acquire and filter data securely

## Announcing Today

Intel® Atom™ E3800 processor family for IoT and Intelligent Systems include

- Improved Power/Performance
- Error Correction Code (ECC)
- Industrial Temperature

Intel® Quark SoC X1000 processor family, features include

- Low Power, Integrated SOC
- Error Correction Code (ECC)
- Industrial Temperature

Scalable Roadmap of Products for IoT

# Announcing Products

System of Systems Middleware

Data Acquisition

- Open Architecture for Ecosystem Apps and Services
- Enable seamless interfaces
- Ensure interoperability between edge systems
- Secure and federate data between cloud and edge for analytics

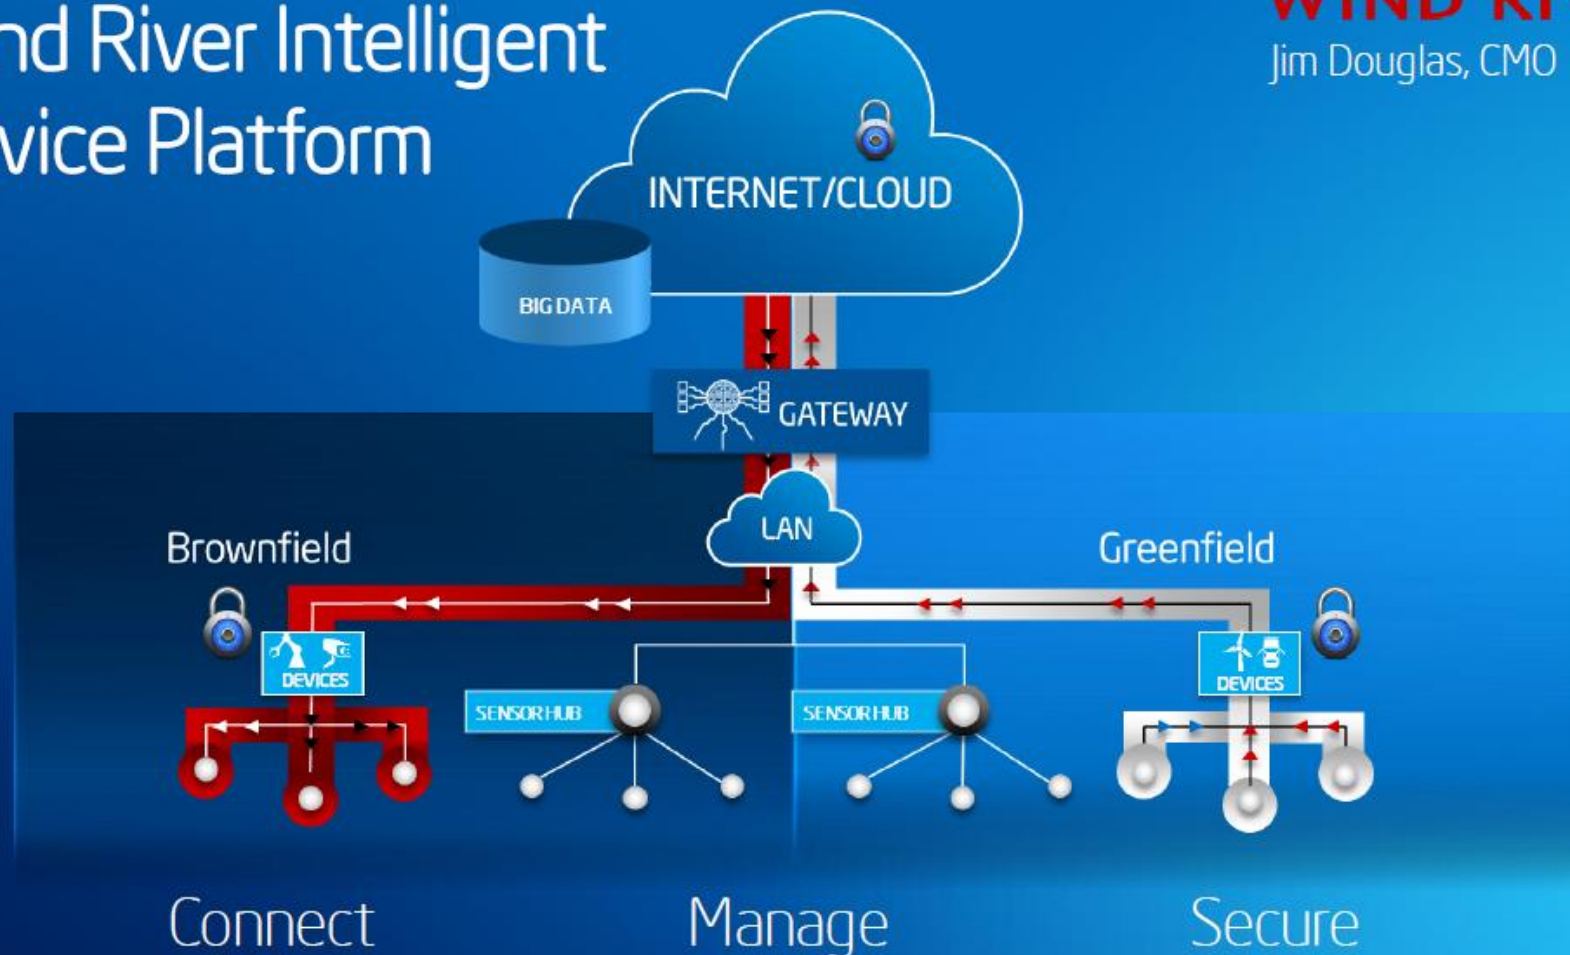

## Announcing Today

- A family of gateway solutions starting with Intel® Quark SoC X1000 and Intel® Atom™ E3800 processor families
- Integrated, validated solution with McAfee and Wind River
- Working with ODMs to develop development kits and reference boards
- Samples in Q4, launch in Q1

# Wind River Intelligent Device Platform

# END-TO-END ANALYTICS

Delivering Business Transformation – Data from Edge/Big Data

## END-TO-END ANALYTICS

- Create value from data
- Provide horizontal building blocks for vertical end-to-end analytics
- Distribute analytics at edge systems and in datacenter

## EXTENDING MARKET ENGAGEMENT

- Data from Devices drives network and Cloud
- IoT analytics is distributed from devices to data center
- Optimized Hadoop and other building blocks for data center analytics
- Reference architectures and case studies in next two quarters

Daikin technology powered by the Intel IOT ecosystem

# Disruptive Technology for Commercial Buildings

# Daikin “Intelligent Equipment” Systems Solution

## Building Performance Management

- Simple, powerful, easy interface
- Energy performance
- Comfort control analytics
- Building performance benchmarking
- Utility grade demand response
- Sustainability and regulatory reporting

## Asset Management

- 24/7/365 anywhere access
- Advanced notification services
- Real time HVAC unit performance
- Remote diagnostics and monitoring
- Performance based maintenance management
- Online integrated service and parts locator

# WHY Intel?

**INDUSTRY AND  
TECHNOLOGY LEADERSHIP**

**DATA CENTER AND  
CLOUD LEADERSHIP**

**GLOBAL  
ECOSYSTEM**

A nighttime cityscape with illuminated skyscrapers and a network overlay of white lines and nodes. The text is overlaid on a blue background on the left side of the image.

# What We Are Announcing **TODAY**

Intel delivers intelligence  
from device to cloud  
to drive the  
internet of things

**Extending product roadmap for devices with Intel® Quark  
SoC X1000 and Intel® Atom™ E3800 Processor Families**

**Family of Intelligent Gateway Solutions launching in Q1'14**

**Strong Industry collaboration to accelerate IoT deployments**

WIND RIVER

# Intel Quark SoC 상세 규격

0201 4202 9100440 4 4441

## Intel® Quark SoC X1000 - Pentium compatible ISA

### - Processor Core

- Single Quark CPU Core, Single Thread
  - 32 bit, x86, @ 400MHz

### - Processor UnCore

- DDR3 memory controller
  - Up to 2GB @ 800MTs
  - ECC-On-Chip
- Embedded 512KB SRAM
- Legacy Block
  - PC compatible IO ports, APICs, etc.
  - 20MHz Legacy SPI for boot code
- Low cost 5-pin JTAG Port

### - Open Hardware Architecture

- AMBA Bus fabric = Flexible Silicon IP

### - Industry Standard I/O Hardware

- 2 - x1 PCIe Gen 2\*
- 2 - 10/100Mb Ethernet MACs
- 2 - USB2 host ports (EHCI, OHCI)
- 2 - HS UART controller
- 2 - 50MHz SPI ports for peripherals
- 1 - USB2 HS Device port
- 1 - SD/SDIO/eMMC interface
- 1 - I2C/GPIO Host controller
- 16 - GPIOs w/ programmable interrupts

### - Physical

- Package size 15x15mm
- 393 Pin, FC BGA bare die
- 0.593 Ball Pitch
- Enables FR4 SFF Board

### - Thermals

- TDP: 2W (VR dependent)
- Tj = 110°C
- Commercial Temp (WW46)
- Ext temp -40 to +85°C (Q1'14)
- Programmable Thermal sensor

### - Industry Standard Software Support

- Standard Compiler Support (ICC/GCC)
- Pentium ISA Compatibility (.586)
- Runs unmodified Linux Kernels (v3.9)
- Yocto based distribution
- Validated w WR IDP 2.0 (Linux & VxWorks)
- Open Source UEFI EDK II
- GRUB boot loader support
- Open OCD Debugging support
- Compliant with PCIe, USB, ACPI standards

### - Security

- Secure Boot Technology Option
- Supervisory Mode Execution Protection
- Secure Recovery for UEFI FW
- Secure Remote Upgrade w/ WR IDP 2.0

### - Electricals:

- Single xtal for internal/external clocks
- Enabled Single std external VR solution

\*PCIe Gen1 speed to save power

# Intel® Quark SoC 및 Galileo Board

마이크로 컨트롤 프로세서, 인텔의 갈릴레오(Galileo)

# Intel® Galileo Board 상세 규격

## Intel® Galileo Board with Arduino Compatability

- Intel® Quark SoC X1000
  - 400 MHz Quark Core
  - 512KB eSRAM, 16KB L1 cache
- 256MB DDR3-800
- 10/100Mb Ethernet Port
- USB2.0 Device Port
- USB2.0 Host Port (EHCI/OHCI)
- RS-232 UART Port, 3.5mm jack
- PCIe Gen 2 Full Mini-card slot
- Micro SD slot, up to 32GB
- 8MB NVRAM SPI NOR flash chip
- SPI programming port
- 10 pin JTAG
- Physical Characteristics
  - 6 Layer Board
  - 10cm x 7cm

- Arduino Compatible Interface (For Educators, Students, and Makers)
  - 6 channel A-to-D Converter
  - 1 SPI port (up to 25MHz)
  - 1 UART
  - 1 I2C
  - 14 GPIOs w prog interrupts
  - 6 PWM
- **Open Source Hardware and Software:**
  - Arduino Software IDE for the Intel® Galileo Quark SoC X1000
  - Linux firmware pre-installed with
    - Full open source driver
    - Full open source tool chain
  - Open HW Documentation
    - BOM/Schematic/Board File/
    - Datasheet

# 감사합니다.

회사문서 보안 관계로 일부 자료를 공개하지 못한점 양해 바랍니다.

IoT 제품 및 사업에 대한 관련 문의는

인텔코리아 박종섭 이사(james.park@intel.com)

유니퀘스트 서규태 부장(tom@uniquet.co.kr)에게

이메일 통해 연락주십시오. 만나뵙고 제품 및 사업에 대해 소개토록 하겠습니다. ^^
