# IoT 시대의
Open H/W Platform을 위한
임베디드 플랫폼 전략

김홍일 (hong-il.kim@oracle.com)
Java Embedded GSU, Oracle

Safe Harbor Statement

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, and timing of any features or functionality described for Oracle's products remains at the sole discretion of Oracle.

Tooling – Developing Efficiently

Java ME SDK, IDEs

- ## Java ME 8 SDK
  - Tools and emulation for rapid development of embedded Java ME applications
  - Includes device emulator, application management interface, memory monitor, network monitor, and more
  - Live code deployment and debugging on devices
- ## Eclipse/NetBeans Plug-ins
  - Integration with Java ME SDK
  - Full-featured, integrated development environment for embedded
